SUMMARY

I'm a social media specialist with over 4 years of experience helping brands grow online, from exhibitions and events to hospitality, real estate, interiors, F&B and retail. I've worked on the ground in India and Qatar, and I've run campaigns for audiences in the UAE, Saudi Arabia and Cameroon, so I know how to adapt content to different markets and cultures.

My work covers organic and paid social: I plan content strategies, build monthly calendars, run Meta, Google, TikTok, Snapchat and LinkedIn ad campaigns, and track performance to keep improving results. I also work hands-on with production, including shooting, editing, Reels, UGC and AI-generated video. I work with influencers, designers, videographers and clients, and I help keep the team organised and on track.
